## 40,000 SQUARE FOOT EXPANSION TO OUR CUSTOM MANUFACTURING FACILITY

In 2014, we began construction on our \$4.3 million, 40,000 square foot expansion of our already 23 acre manufacturing facility. The new facility features CNC plate rolling equipment, press brakes, and plasma tables, as well as automated and robotic welding equipment. Yes, that means robots! **Our new world class facility is now fully online** and gives us more control and flexibility over the entire manufacturing process. We're excited about this additional capability and encourage you to think of us for your manufacturing needs beyond tanks and other specialties. If it's made of steel, we can build it.

## WHAT OUR CLIENTS SAY

*"I am so very pleased to be a customer of DEL, and view DEL as a team member with us to design and build out processing plants that enables us to execute the work that we do."* - Steve Loupe, Inland Marine Services

## FEATURED PRODUCTS FOR 2019

## KODIAK TOTAL CLEAN MUD SYSTEM

## SANDCAT TOTAL CLEAN FLOWBACK SYSTEM
